

Tachi-S Earns First Place Accolades for Seat Quality and Satisfaction

Top Honors Received for Midsize/Large Car and Compact SUV/MPV Segments

Farmington Hills, MI—Tachi-S, a global leader in automotive seating, was recently recognized for three seating programs in the J.D. Power 2018 Seat Quality and Satisfaction Study.sm

In the Mass Market Midsize/Large Car segment, Tachi-S received First Place recognition for the Honda Clarity seating with only 1.7 problems per 100 vehicles and Second Place honors for the Nissan Maxima with only 3.1 problems per 100 vehicles.

Tachi-S was also awarded First Place in the Mass Market Compact SUV/MPV segment for the Mitsubishi Outlander Sport.

“Everyone here at Tachi-S Engineering is proud of our contributions to these great honors,” said Kenji Kajihata, President of Tachi-S Engineering USA Inc. “We have worked very hard locally and globally to improve the quality of all our seating programs.”

The J.D. Power 2018 Seat Quality and Satisfaction Study is based on 75,000 purchasers and lessees of new 2018 model-year cars and light trucks registered in November 2017 through February 2018. The study took place from February through March 2018.
